Guidelines:

- Business card size ads - please submit actual business card for best results in the program.
- Ads must be laid out and submitted in the final print size purchased with **minimum 300 DPI** (photos and final submission).

Tips for the highest quality ad:

- The best programs to create your ad are with programs like: Adobe Illustrator or programs similar to Picasa (*which is free from Google*)
- To check the quality zoom to 400% prior to submitting.
- Avoid using Power Point, free programs to create a pdf, and free fonts downloaded from the internet. (*The quality is lost*)
- If using Microsoft Word we cannot guarantee the font will remain the original. Be sure photos are a min. of 300 DPI.

Submission:
